

Standard Toilet Seat Riser with Arms

Model # 8344-R

- Riser bolts directly to toilet for optimal stability
- Keep your existing toilet seat while adding 3 1/2" of height
- Added height reduces strain when sitting and standing
- Riser easily attaches to the toilet (all hardware included)
- Made of durable blow molded plastic and easy to clean

We love the Toilet Seat Riser with Arms because it has two great functions to help you get on and off the toilet. The seat riser elevates the toilet seat and the padded arms provide support and security. We use the toilet an average of 2,500 times a year ... make it easy, safe and comfortable.
